

Peer Mentors & Befrienders volunteers

Volunteer role

We are looking for volunteers to support our hostel accommodation services in Bradford by providing befriending or mentoring support.

A person who has been homeless can be cut off from family and friends, contacts that the majority of us take for granted. While support workers strive to fill the gap, there is a limit to what they can achieve.

This is where we need volunteers to come in and offer their time to be either a Befriender or a Peer Mentor.

Peers are welcome, so if you have your own experience of homelessness and want to support others into making a success of their tenancy, then this role could be for you.

Both roles require a weekly commitment.

Service information

The role is based at our hostel in Bradford which offers temporary accommodation to people who are homeless or at risk of homelessness.
